Scott,

Perhaps I'll take you up on your offer to get in touch with your EQUIS practice leader. Curious what version of SQL Server you are using to help plan for how we'll need to process the files on our end.

Thanks,

Mark

OK this is what I have and please note I'm not an IT person.

IT essentially copied the EQUIS SQL database and Schema. I have a PASSAIC.mdf and a PASSAIC_1.LDF file that I will be sending you.

As I understand it, these files represent a separate instance of the EQUIS schema. If you need more clarification I can put you in touch with our EQUIS practice leader.

Scott,

What format are you sending the data in? Is it a SQL Server .bak file?

Mark

Thanks, I copied the EQuIS DB and Schema onto a hard disk last night while the servers had the lowest traffic. I'm not in the office today so I may not be able to send it out until tomorrow.

Hi Rob - should he send it to you, or someone else?

Thanks

Stephanie, I will be downloading a copy of the Passaic database for the CPG Tomorrow. It will be on an external hard disk. Whose attention should I send it to?
